WILSON COMES VIA BOSTON

CAUSTIC CRITICISM BY THE FRENCH JOURNALS

(By Associated Press)
PARIS, Feb. 15.—Comment of French newspapers on the League of Nations constitution reveals little enthusiasm. The Figaro says: "The

commission wisely decided not to rush tomorrow from the eternal and how confined itself to making safe the present. The mythic society of nations has then become a league of the five great powers which beat Germany and which means to consolidate both victory and peace."

The Socialist newspaper, Humanite, says: "It is impossible to conceal the impression of disillusionment. The project cannot in any way command the support of the democrats

and people's parties, which placed so much hope in the idea of which Wilson constituted himself an eloquent defender."

A. G. Harbaugh, consulting chemical engineer, returned from San Francisco today where he was successful in placing before A. G. Farmer, his principal, and a number of wealthy associates a project that carries with it the sinking of a 400-foot shaft in a formation analogous to that of the Tonopah Gold Mountain country where the Tonopah Divide is making new history for Nevada metallurgy. Mr. Harbaugh reports that his people, all of whom are wealthy men, were highly enthusiastic over the prospect held out by silver mines and expressed eagerness to get in on some good proposition in Nevada. REGULAR CLASSES REOPEN MONDAY

The grades in the public schools will resume regular sessions Monday as Superintendent Dilworth has reached the conclusion that there is no longer any danger of the epidemic of influenza spreading. The pupils have been holding broken sessions since resuming classes six weeks ago.

The pupils of the high school held their first social last night when an excellent program of music was presented and the evening passed merrily in dancing and discussing a tantalizing luncheon served with fruit punch. The object of the session was to get together as the boys and girls have not had a chance to fraternize locally owing to the order prohibiting social gatherings during the presence of the serious malady.
